Public Comments Submitted Via Email

Dear WJUSD,

As parents of Tafoya Elementary School students, we were shocked to find out about the reassignment of our Principal Lyssa Perry. To say that we are heartbroken would be an understatement. With all that we have been through as a school in the last several years, combined with the transition we have already undertaken coming back from remote learning, we could not think of a bigger disruption to the largest elementary school in the district. This is not a decision that serves the students of WJUSD equitably and we ask that you do not go through with this relocation. Given that Mrs. Perry's assignment was at the request of WJUSD admin, we would like to express to WJUSD that this is a decision our teachers overwhelmingly oppose and as we will argue, not an obstacle our kids deserve.

Years ago, Alison Gardner undertook the role of a lifetime in rehabbing an underperforming title one school. When she stepped away, her work had begun a massive shift in the tide. What we needed was a strong leader who would be able to foster tremendous relational equity in order to continue the progress of our school. Lyssa has achieved that and more yet her work has only just begun. Removing her from the largest elementary school in the district will undo

the work that so many have invested in our school and contradict the very task you hired her for just two years ago. Moreover, how is it right to destabilize one of the worst performing schools, that continues to improve, in order to bring an interim to arguably the best performing elementary school (by data of CASchoolDashboard.org available on the WJUSD website)? We all know that an interim serves at best to maintain - not grow, change, or innovate. This is the choice you are making: to stall the growth of two schools rather than allow Tafoya to continue to improve and do the hard work of finding a permanent replacement for Zamora. That is the LAST thing our children need at Tafoya. How could you possibly tell us as parents that this is the most equitable choice in the best interest of all students?

We have been through so much administrative change in the last several years. We FINALLY have a strong administrative team and it would be careless to disrupt that partnership to fill a hole that was created in a school more than half our size. Lyssa is in the midst of a multi-year plan to strengthen our school and to derail that plan is unnecessary at best and reckless at worst. It cannot be understated the value of a Principal who has earned the respect of parents and teachers and who knows, by name, the challenges, trials, and needs of our entire student body. That kind of investment and insight does not come without years of work. Please do not undo all of the progress we have made in an attempt to fill a temporary void. It is not equitable and it simply isn't right.

We implore you to find a solution that does not cause this level of chaos in a school desperately in need of some consistency of leadership. Our kids have been through enough the last 18 months. Do not decide to make a bad situation exponentially worse.

Respectfully,
The Parents of the Tafoya Elementary School Student Body

Good evening WJUSD Board members,

As a longtime advocate for Tafoya Elementary students, families and teachers I was shocked to hear that the decision had been made to move our Principal to another school in the District later this month. For the better part of the last 6-7 years I have served as PTA Board member, Woodland Cal Ripken President (league that is adjacent to the Tafoya school site) and parent to two students at Tafoya. I have also lived in Spring Lake for the past 13 years. Using a baseball analogy I will compare what I have observed over the last decade plus in Woodland in baseball terms.

As a Spring Lake resident who moved to Woodland 13 years ago I was looking forward to sending my children to a school down the street from our house, the planned Spring Lake Elementary. I mean after all a portion of the cost of our house(s) in Spring Lake went to building the school. Of course that hope faded when I found that our home school was Tafoya and the Spring Lake Campus would not be built in time for our children to benefit. Fast forward 13 years and there is a school. However not only is it not big enough for Spring Lake residents to send their kids but it has forced parents to find other places to send their kids such as Davis, private schools or continue going to Tafoya. Talking with most of my neighbors there seems to be a stigma with going to Tafoya. I mean it has a different curriculum (not S.T.E.A.M. based), serves nearly 900 kids, historically has had lower than normal test scores and is a Title 1 school. The Board speaks all the time about equity for all of the schools in our Districts at Board meetings, how does it look to the community if a principal is removed from a school that is turning the corner in terms of parent involvement, test scores and other measures in the community? How will that stigma ever change? Strike 1.

As mentioned we made the best of our time at Tafoya, where we served as a pillar to the PTA for 4-5 years, first as treasurer and then President. It was then that I learned what obstacles a school like Tafoya had in becoming successful. This time on the PTA overlapped with Mrs. Perry's arrival. Honestly I can say that I was a bit burnt out by all the work that goes into making a school of Tafoya's size successful. When I first met Mrs. Perry I couldn't believe the amount of enthusiasm and amount of great ideas she had to make Tafoya a better place. I thought for sure that her excitement would fade, the great communication skills would stop when she got comfortable, the extra mile she went with the PTA would cease, etc. But no...she instead continued to make the school her obvious #1 priority by being engaged with parents in all respects. She became a pillar for

families during COVID and welcomed them back with open arms. Removing her at this point whether temporarily or not would sever those relationships for the worse. Will Mrs. Perry, the interim or others in the District positions continue to put their best foot forward in the future when there is a chance that a rug can be pulled out from under them at any moment? Will either school will get the best from the new admin while acting as an "interim"? Have there ever been thoughts about why it is so hard to fill other admin positions in the District? These questions are not meant to bring down either "interim", but they stand to point out the simple fact that people who do not have security to do their job right are less likely to buy-in for bigger solutions. Strike 2.

Finally, I find peace in things that make sense and are well thought out. This brings me to my last point. If this were to have happened over the summer it would have been hard to swallow, but would have made more sense in my opinion. Now here we are a month into the year and this decision is made. Teachers, Families and Students are just starting to get in their routines. It is almost as if something happened at the school where Mrs. Perry is being sent that triggered this. Could it be that a student at Zamora is more important than a student at Tafoya, I don't think so. Is it because 300 or so kids at Zamora are more important than 800 plus kids at Tafoya, definitely not. Maybe it was because Zamora students have performed better than Tafoya on testing or other state measurements (see google search below)? Clearly for that reason alone is why a more involved Principal like Mrs. Perry is needed at Tafoya. In order for all the students to move in the right direction in Woodland, our strongest principals should be placed where the need is the greatest. Whatever the reason, this seems reactionary rather than well thought out and well executed. Strike 3.

I like other parents had hoped to garner support for Mrs. Perry through a respectful petition. Clearly that idea was pushed to the side, much like we feel our students will be if this transfer goes through. No matter how it is presented I will not believe that Mrs. Perry would willingly volunteer to leave Tafoya after all of the hard work she has put into the school since moving to Woodland.

I hope that the School Board considers my thoughts above before moving forward with this very important decision that effects not only one school, but two schools immediately this year and all the schools in the District for years to come. Seeing an email this week asking for the public's opinion regarding the next superintendent leads me to believe that the District is open to community involvement in these types of decisions. I ask that you hear the concerns of the community when deciding on whether or not moving principals best serves ALL the students in our District.

The CSR Rank is determined by a school's percentile in comparison to other schools of the same type in California (from 1-d above). (1 is the worst, 10 is the best)

Respectfully Daniel Sessions
Involved and Concerned Parent

Greetings Trustees,

I would like to express my concern with the reassignment of the Tafoya Principal and the lack of communication from District Leadership to families surrounding this.

While Ms. Perry's communication to the Tafoya families was timely and appreciated, it would have been comforting to have heard from District Leadership about why this move occurred, the short term and long term plans, what other options were considered and why they were not viable, etc.

The lack of communication surrounding this move invites speculation and rumors. On the surface, it seems as if one school's wellbeing is sacrificed for another.

A letter to parents or a parent meeting, from District Leadership, would go a long way in helping the Tafoya community understand this move and what to expect over the coming months. I urge you to consider this and explore this situation further.

Thank you,
Jennifer Buzolich
Tafoya Parent

Good evening,

I am a Spring Lake resident, on Somerset Cir. and I have been involved with Jen Owens, Brian Coward, Bruce Jacks and Eric Garber on trying to get an actual fully functioning neighborhood school for this neighborhood. They have been putting in so much time and effort into all of this. I am just starting to catch up. Huge shoutout to them for continuing their involvement and enacting change!

But from attending the past impromptu school board meeting at SLE, it is clear that there is a fervor over this that the board is not recognizing.

In regards to the following items:

L.5 Other Districts in the region finance school facilities by having the Developer front the money and get reimbursed by the State when and if matching funds are provided. Why have you not been negotiating for this already??

D.3.A Land Acquisition for potential expansion of Spring Lake Elementary. I'm all in favor of this, if it can work out. How would expansion be funded? Would it be enough to make this a neighborhood designated school? It NEEDS to be.

We do not JUST need to expand SLE, we need a SECOND Elementary school. There MUST be one in the Woodland Research and Technology Park, and it MUST be paid for 100% by developer's fees.

With the city continuing to approve more and more residences (Beeghly Ranch, WRTP), as a Realtor, I can tell you that more than 80% of people I have sold to are young families that would

need not just the elementary school, but a middle school as well. I have many people moving from out of the area into Woodland, from Bay area, Oregon, Washington, from southern California. And we want people to desire living here. That trend will not last if we cannot get our schools up to par. It is the #1 thing I hear from all clients. But, the SCHOOLS.

That's YOU. You are who determines how we continue growth and functionality of our schools, and if you continue the trend from the past 20 years of not acting with foresight, then there will not continue to be growth, there will be stagnation and ultimately, decline.

FUND THE SCHOOL AT THE RESEARCH AND TECHNOLOGY PARK 100% FROM DEVELOPER FEES!!

Also, because I cannot believe you have not learned your lesson--

DO NOT SELL LAND WE NEED FOR A MIDDLE SCHOOL TO THE CITY BUILD THE MIDDLE SCHOOL INSTEAD OF A POOL!!!. In the past the school board kept saying we didn't need the three campuses for Elementary school and sold them to developers. What BS. Now we are debating buying park land to expand the teeny tiny SLE because we don't have any more land for schools. You have a chance in this one to get it right. To have foresight of what we need not just now, but in the future, especially as residences get built in the WRTP.

Thank you. JENNA

Hello,

See attached pdf for public comment regarding closed session item 'D.3.A - Property: Land Acquisition for Potential Elementary School in the Woodland Research and Technology Park (WRTP)'. I will call and leave a voice mail to be played during public comment too.

Thank you,
Brian Coward

Dear Superintendent Pritchard, President Whitaker, and Board members,

My name is Brian Coward. I'm a Woodland resident writing in regard to closed session item 'D.3.A - Property: Land Acquisition for Potential Expansion of Spring Lake Elementary School'.

It is great to see the District and Board are recognizing the 60+ waitlist to enroll at Spring Lake Elementary (SLE) by exploring the possibility of expanding the campus. That is great news! Thank you.

What I would request is that the closed session negotiations be postponed in order to have some public outreach to the teachers, staff, and parents at Spring Lake Elementary. The District and Board could learn a lot from meetings specifically focused on the inability of the existing facilities to meet the enrollment needs of the community. We were surprised and upset to find a closed session item on the agenda discussing the topic and that the playfield design and construction are being delayed due to this action.

With three schools planned in the Spring Lake Specific Plan and the poorly negotiated Developer Agreement for the area, there were only enough developer fees to build one elementary school in phases that are still being constructed 4 years after opening. The lack of a solid financial structure to fund elementary schools has led to the SLE campus facilities; blacktop, multipurpose room, and library all being scaled down in capacity and severely limiting the ability to expand the campus. The campus layout is also poorly done for future expansion.

While these obstacles can be overcome, to a certain extent, by meeting with SLE teachers, staff, and parents I have concerns about the potential funding sources that would be used to expand the campus. I know the District has been in closed session negotiations with the Woodland Research and Technology Park (WRTP) Developer and I hope those meetings are resulting in 100% school impact funding in the WRTP and reimbursement through State matching funds going to the Developer. If that is the direction the negotiations are going, GREAT! If not, we can NOT afford to use developer fees from the WRTP to fund the expansion of SLE. We will need those developer fees, donated school land, a Community Facility District, State matching funds, and potentially a local bond measure to build an elementary school in the WRTP large enough to meet the needs of Woodlanders. We need a campus in the WRTP as large as Tafoya Elementary.

Thank you for your continued effort and interest in providing neighborhood schools for all Woodland children. Respectfully,
Brian Coward
