

WAC. These are good people who care deeply about what is best for our community's school-age kids. Homeowners in SL have been promised, and continue to pay for through developer fees, the construction of new schools. WJUSD needs to urgently provide a clear plan to responsibly use these fees. The need for new neighborhood schools in SL could not be any more obvious. I ask that WJUSD especially reach out to senior citizens and Spanish-speaking families to ensure their voices are heard. Thank you.
