1. Introductions were made.

2. Course Review: Review Course Descriptions for PUENTE

This item was adjusted so that members could review the newly created and adopted course called "Art and Culture". Members were provided with the course outline and a note-taking sheet for the Ethnic Studies standards. Members were asked to review the course outline in order to identify the ways in which the course addresses the Ethnic Studies standards. It was determined that there was sufficient visible evidence for standards 1, 3, and 4, but members wanted more detail about standard 2.

At the next meeting, Christina will provide some additional details regarding how the course will meet standard 2.

3. Review feedback for Ethnic Studies workshops

Members were provided with feedback from teachers attending the Ethnic Studies workshops.

4. Review and provide feedback on training plan for 2019-20

Christina shared the draft plan for training in Ethnic Studies for next school year, which includes a focus on training the Social Science teachers. Please see the powerpoint for the details. Member comments were collected.
