WHEREAS, pursuant to section 18 of Article XVI and section 1 of Article XIII A of the California Constitution, and section 15266 of the California Education Code, school districts may seek approval of general obligation bonds and levy an *ad valorem* tax to repay those bonds upon a 55% vote of those voting on a proposition for the purpose, provided certain accountability measures are included in the proposition;

BOND PROJECT LIST

The Bond Project List attached to this resolution as Exhibit A shall be considered a part of the ballot proposition, and shall be reproduced in any official document required to contain the full statement of the bond proposition.

BOND PROJECT LIST

Projects to be funded by the bond measure include:

- Installation of a comprehensive HVAC system at Woodland High School
- Construction of a new practice gymnasium at Pioneer High School

The listed projects will be completed as needed. Each project is assumed to include its share of furniture, equipment, architectural, engineering, and similar planning costs, program management, staff training expenses and a customary contingency, and escalation for unforeseen design and construction costs. In addition to the listed projects stated above, the Project List also includes the acquisition of a variety of maintenance and operational equipment, including the payment of the costs of preparation of all facility planning, facility studies, assessment reviews, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, and temporary housing of dislocated District activities caused by bond projects.

The budget for each project is an estimation and may be affected by factors beyond the District's control. The final cost of each project will be determined as plans are finalized, construction bids are awarded and projects are completed. Based on the final costs of each project, certain of the projects described above may be delayed or may not be completed. Demolition of existing facilities and reconstruction of facilities scheduled for repair and upgrade may occur, if the Board determines that such an approach would be more cost-effective in creating enhanced and operationally efficient campuses. Necessary site preparation/restoration and landscaping, may occur in connection with new construction, renovation or remodeling, or installation or removal of relocatable classrooms, including ingress and egress, removing, replacing, or installing irrigation, utility lines, trees and landscaping, redirecting fire access, and acquiring any necessary easements, licenses, or rights of way to the property.

EXHIBIT B

TAX RATE STATEMENT

An election will be held in the Woodland Joint Unified School District (the "District") on November 6, 2018, to authorize the sale of up to \$20,200,000 in bonds of the District for the specific school facilities projects listed in the Bond Project List established by the District, as described in the proposition. If the bonds are authorized and a State bonding capacity waiver is received, the District expects to sell the bonds in two or more series. Principal and interest on the bonds will be payable from the proceeds of tax levies made upon the taxable property in the District. The following information is provided in compliance with Sections 9400-9404 of the Elections Code of the State of California.

1. The best estimate from official sources of the average annual tax rate that would be required to be levied to fund that bond issue over the entire duration of the bond debt service, based on assessed valuations available at the time of the election or a projection based on experience within the same jurisdiction or other demonstrable factors is 5.28 cents per \$100 of assessed valuation (\$52.80 per \$100,000 of assessed valuation) of all property to be taxed. The best estimate of the final fiscal year in which the tax is anticipated to be collected is 2023-24.

2. The best estimate from official sources of the highest tax rate that would be required to be levied to fund that bond issue, and an estimate of the year in which that rate will apply, based on assessed valuations available at the time of the election or a projection based on experience within the same jurisdiction or other demonstrable factors is 5.282 cents per \$100 of assessed valuation (\$52.82 per \$100,000 of assessed valuation) of all property to be taxed. The best estimate of the year in which the highest tax rate will apply is anticipated to be 2019-20.

3. The best estimate from official sources of the total debt service, including the principal and interest, that would be required to be repaid if all the bonds are issued and sold is \$22,239,492.

Voters should note that such estimated tax rates are specific to the repayment of bonds issued under this authorization and are and will be in addition to tax rates levied in connection with other bond authorizations approved or to be approved by the District or any other overlapping public agency.

Voters should note that estimated tax rate is based on the ASSESSED VALUE of taxable property on Yolo County's official tax rolls, not on the property's market value. Property owners should consult their own property tax bills to determine their property's assessed value and any applicable tax exemptions.

Attention of all voters is directed to the fact that the foregoing information is based upon the District's projections and estimates only, which are not binding upon the District. The actual tax rates and the years in which they will apply may vary from those presently estimated, due to variations from these estimates in the timing of bond sales, the amount of bonds sold and market interest rates at the time of each sale, and actual assessed valuations over the term of repayment of the bonds. The dates of sale and the amount of bonds sold at any given time will be determined by the District based on need for construction funds and other factors. The actual interest rates at which the bonds will be sold will depend on the bond market at the time of each sale. Actual future assessed valuation will depend upon the amount and value of taxable property within the District as determined by the Yolo County Assessor in the annual assessment and the equalization process.
