

FAMILY SCIENCE NIGHT

PRESENTED BY EXPLORIT SCIENCE CENTER

Fun. SCIENCE for Families. Future.

If you think science is boring, think again!

Family Science Night, presented by the Explorit Science Center, is an enjoyable interactive experience for guests of all ages.

Parents can learn with their children as they visit the 17 stations, each with activities that encourage guests to look closer at the science that influences our daily lives.

From Geology and Biology, to Engineering and more, topics range from life cycles, plant and animal sciences, nutrition and the human body, microscopic studies, and fossils, rocks and crystals. All topics and activities tie to Next Generation Science Standards.

The program is 1½ hours in duration, can be scheduled for the early evening, and held in your cafeteria or multi-purpose room.

To reserve a Family Science Night for your school or community event call 530-756-0191.
