3. *Question:* Under Section IV.A. SELECTION PROCESS, SELECTION CRITERIA, there is a conflict in the language surrounding the basis of award, the Cost/Price Methodology is not given the greatest weight at 20%, actually Proposed Services is given the greatest weight at 25%.

Please revise/clarify either the text/language OR the Points in Selection Criteria chart.

A "best value" method of selection will be utilized in awarding the services.

Selection Criteria	Relative Weight (%)
Cost/Pricing Methodology	20
Proposed Services	25
Technical Expertise	15
Team Experience	15
Recent Success with Similar Services	10
Proximity of Offices and Availability of Qualified Staff	5

Other Qualifications	5

*The "best value" method evaluates the selection criteria listed below based on the designated relative weight given to each criterion as a percentage of the RFQ's total points possible, **where Cost/Pricing Methodology is given the greatest weight.***

- a. *Response:* WJUSD has modified the verbiage to read "*The "best value" method evaluates the selection criteria listed below based on the designated relative weight given to each criterion as a percentage of the RFQ's total points possible, **where Proposed Services is given the greatest weight.***"
